

1,4SHIP[®]

1,4SHIP[®] is a ready-to-use aerosol dormancy enhancer that treats fresh potatoes in transit. Dispense 1,4SHIP[®] directly into the shipping vehicle to maintain dormancy and tuber firmness. Whether you ship by truck, rail car or ocean vessel container, 1,4SHIP[®] will keep your potatoes "field fresh" upon delivery.

Benefits

- **Maintains dormancy** even on previously treated potatoes
- **Provides increased moisture**
- **Extends Shelf Life** for higher customer satisfaction.
- **Maintains Firmness** of potatoes during shipping, reducing load rejections or downgrades.

1,4SHIP[®] DELIVERS

How Does 1,4SHIP[®] Work?

It effectively restores natural dormancy of potatoes, slows the conversion of starches into sugars, and maintains moisture levels. This dormant state prevents potatoes from peeping.
