

# SPUD GUARD® 2 EC

Applying **SPUD GUARD® 2 EC** to washed potatoes will guard against peeps and sprouts during shipment.

- **Provides uniform coverage** for effective sprout control
- **Unique formula** reduces scale deposits and build up in lines and nozzles
- **Save on energy costs**
- **Highly soluble** for immediate injection into the water flow
- **Available** in convenient 5 and 30 gallon containers

## Shields Potatoes from Sprouts

SPUD GUARD® 2 EC is applied as a 1% emulsion spray on the drying table, or similar station, after the potatoes have been washed. One gallon of SPUD GUARD® 2 EC will treat up to 2,000 CWT of potatoes.
